

Rojava is under attack by jihadist HTŞ and even ISIS criminals are freed from jails with the support of Turkey and backing of international forces for their political gains. While Kurdish women and people are announcing they will protect their lives and land until the last breath, there is something we can do to support them. We request your organisations to sign the petition and take action to pressure governments as we are trying to do as women here in Turkey organising under the Women's Initiative 'I Need Peace' (accounts and contact info provided below). This is also a fight for a liveable world for us as women in this region and across the world. Please fill in the form until the evening of Jan 26th (Monday).

<https://forms.gle/DscSGRbYnueim6dC7>

We do not accept the jihadism imposed upon us by imperialists, solidarity with Rojava is the only way to a free and equal future!
